Washington, D. C., February 19, 1963
The Senate fight over the rules ended on the 7th. It had gone on so long that it stopped necessary work, so the Senate adjourned for a week to organize its new committee, and we took that opportunity to go traveling.

John left first, for Boston, where he was the speaker at the oldest Lincoln club in the country—the Middlesex Republican Club. He enjoyed this visit very much, as he was with friends, including Senator Saltonstall, Cabot Lodge, and the young and progressive Chairman of the Republican Party in Massachusetts, Philip K. Allen. I have heard that John's talk was especially good. He urged the Republicans to remember and act on the fundamental purposes and interests of our party. Lincoln's political philosophy represented all of us and truly interpreted our Constitution. No wonder all the people of the world revere him. One example, the French author, Jean Daridan, has just written an excellent biography of Lincoln in French, which is soon to be translated.

That same Tuesday, February 12, while John was speaking in Boston President and Mrs. Kennedy were giving a reception to celebrate the 100th anniversary of the Emancipation Proclamation, which I imagine is the first time that both the Republicans and Democrats were giving parties for President Lincoln. The new blue and green rooms in the White House are lovely. The soft moss green moire silk is a vast improvement over the harsh green that was there before. As for the blue room, the walls are covered with white on white striped silk, with blue curtains and a blue valance around the entire room, which carries out the traditional color scheme.

The next day we piled on the train to Cincinnati, had luck and made our connection on the dear old Southern that stops at Somerset, and motored from there into the snow-covered hills of Cumberland Falls, where John was to speak again at another Lincoln Dinner. Despite the icy roads, the dining room was crowded with courageous Republicans and we all whooped it up and had a great time together.

The next morning we went to Louisville and had two whole juicy days in the country, which I am sure will be our only winter vacation.

Yesterday the Louisville Fund gave a luncheon for its 350 volunteers.

Among the interesting people I met was Dr. James Turpin of Ashland, Kentucky, who initiated Project Concern. He has been chosen as one of the year's ten outstanding young men by the United States Junior Chamber of Commerce. He told me he had a Chinese junk which will be used as his office and clinic in Hong Kong. It sounded as if he were carrying on the fine work of Dr. Tom Dooley in Asia.

The next day I met John in New York, where we went to a once-in-a-lifetime kind of dinner dance given by Mr. and Mrs. John Barry Ryan, Jr., and Sr., for their daughter and sister, Lady Ogilvy, and Lord Ogilvy. The Ryans had taken the beautiful rooms on the second floor of the St. Regis Hotel. There were 175 of us for a seated dinner, which was enlivened by the marvelous dance music of Emil Coleman, who had played at the coming out parties of every generation of the family. He told John Ryan, "Tonight I am playing with my heart."

The guests were a mixture of old friends, U.N. diplomats, the theatrical world—I saw Peter Ustinov and thought he was the man who advertised Schweppes quinine water—and a flock of the young New York beauties, with their hair either down to their shoulders or just as far up in the air.

workers in the Crystal Ballroom of the Brown Hotel. I was the guest speaker, and my subject was "What Art Means To Me." For the last few weeks I had been asking everyone to tell me in one word what art meant to them, and received all kinds of erudite answers. I pounced on one very learned scholar at dinner one night, saying: "Tell me quickly in one word, what art means to you?" Without hesitation he answered, "Linkletter."

It was quite a week, and as it says in "O Ye Jigs and Juleps," "Hallelujah three times."
